# Regulators

## Series 50 Miniature Regulator

Kuhnke System Logic Devices

### Miniature Pressure Regulator

The miniature Series 50 regulator provides regulation of air pressures from 0 to 8 Bar. The regulator is available in both relieving and non-relieving versions. Housing is nickel-plated brass.

The regulator is supplied with a panel nut for mounting in a 25mm diameter hole. A large brass knob provides for adjustment throughout the regulator's range. A setting lock nut is included to prevent tampering after adjustment. The regulator has a third port for connection of a pressure gauge. Primary and secondary ports are 180° apart on the side of the regulator body.

Several adjustment ranges are available for close regulation in most applications. Special designs are available.

### Technical Specifications

**Op. Pressure:**

0-10 bar

**Regulator Range:**

0-8 bar

**Porting:**

1/8

**Flow Rate:**

Dependent on regulator model.  
See charts.

**Media:**

Filtered air.

**Types:**

Relieving or non-relieving.  
Single stage, diaphragm/  
spring construction.

**Response Time:**

(Dependent on secondary volume).  
Response average: 45ms at 20%  
loss of secondary air pressure;  
100ms at 50% loss of secondary  
air pressure.

**Adjustment:**

Knob Adj. Equipped with locking nut  
to prevent tampering after setting is  
made.

**Materials:**

Brass housing nickel-plated,  
stainless and brass interior parts,  
Buna N seals.

**Operating Ambient:**

0° C to + 60° C

**Dimensions:**

Height – 59mm  
Width – 30mm Square  
Weight – 27 gr.

**Drilling Plan:**

Mounts in 25mm dia. hole.  
Equipped with mounting nut.  
Behind panel depth – 28mm.

### Selection Chart

Secondary Pressure Regulation Range	Catalogue Number	
	Relieving Type	Non- Relieving Type
<b>With 1/8 NPT ports...</b>		
6 Bar	50780-00US	---
<b>With Metric G 1/8 ports...</b>		
8 Bar	50780-00-80-00	50780-00-80-10
2.5 Bar	50780-00-25-00	50780-00-25-10
1 Bar	50780-00-10-00	50780-00-10-10

### Diagrams

Relieving

Non- Relieving

### Accessories

An 'L' shaped bracket catalogue number **48255-100** can be used to mount the regulator on a flat surface using (2) M5 threaded holes on the rear of the unit.

### Operation

Relieving type regulators allow excessive pressure on the secondary side of the regulator to bleed off to the atmosphere, helping maintain steady pressure. Non-relieving types are used where pressure build up is not a concern as in air motors, or air gun applications etc.
